

Question 38: **COMMENTS** (TO MATRIX QUESTIONS 35-37)

MAXIMUM HP

Do whatever it takes to reduce wave height and energy.

Enforce the rules we have

HORSE POWER LIMIT

DO NOT HAVE THE EXPERTISE TO COMMENT

Should hp restrictions be considered?

Flat faced shore lines should be replaced/enhanced with riprap or rock to displace lake energy.

Lake is too small for wake boats.

No huge cement sea walls

WAKE ENHANCED BOATS ARE THE MAIN ISSUE.

The biggest wake board boats are only fun for those on the boat. All others feel it.

WAKE BOATS CREATE CHALLENGES BUT I THINK THE REGULATIONS NEED TO BE CONSISTENT FOR ALL BOATS ( IE. NO GRANDFATHERING)

I personally think new concrete sea walls should be restricted.

BUT HOW WOULD YOU ENFORCE THIS?

WEIGHT OF BOAT IS MORE IMPORTANT THAN LENGTH

LIMIT USE OF JET SKIS !!

HOW ENFORSED?

Not sure what can help.

As long as operators are adhering to manufacturers placards.

DON'T NEED ANY MORE WAVE HEIGHT WAVES.

Boat displacement is more of an issue than length.

HOW WOULD YOU MONITOR THIS?

FOR SIZE OF LAKE IT IS HARDEST ( LARGE WAVES) ON HOLIDAYS ONLY!

It's not the length of the boat, it's the hp and speed.

NO WAKE BOATS OR LIMIT IN BEST\*\*\*\* TO INTENTIONLLY CREATE A TSUNAMI WAKE!

We need to get back to Safer Boating!

Waves from wake surfing activity is excessive, when too close to shore or other boats.

LIMIT TOTAL # OF POWER BOATS ALLOWED TO REGISTER

We need to reduce the size of the wakes on the lake by any means.

NO WAKE BOATS LAKE IS TOO SMALL

NOTE DURING THE RECENT 4TH OF JULY, IT WAS NOTED THAT MANY BOATS LOADED TO CAPACITY FORMED LARGE WAVES/WAKES EQUIVALENT TO WHAT HAS BEEN REFERRED TO HERE AS A 'WAKE ENHANCED' BOATS, ANY FULL LOADED BOAT COULD BE CONSIDERED A " WAKE ENHANCED' BOAT. EVEN THE POLICE BOAT WHICH TRAVELED AT PLOWING SPEED THAT WEEKEND PRODUCED A WAKE EQUIVALENT TO THE " WAKE ENHANCED" BOATSS THAT WERE ON THE LAKE THAT WEEKEND.

Most lakes our size outlaw wake boats.

Depth of water 30 ft

WAKE BOATS SHOULD NOT BE PERMITTED AT ALL

Only because there is no way to know what the impact is. Might be okay if these came with limits similar to those from the MFG.

Manufacturers keep increasing weight. Limit necessary on our size lake.

FORS THE SUMMMER WE LET PEOPLE ENJOY THEMSELVES! STOP OVER POLITING AND STOP ALL OF THE REDICULOUS ORDINANCES.

NO ADDITIONAL BALLAST APPROVED OR NOT

don't know enough about weight

"I DO NOT SUPPORT ANY CHANGES THAT REQUIRE PREVIOUSLY AUTHORIZED BOATS OR BOAT AUTHORIZATION (NOS.) TO CHANGE W.O PERMANENT GRAND FATHER PROVISION

SEE COMMENT ABOVE- ONCE A BOAT IS PURCHASED AND REGISTERED BY IL IT SEEMS TO BE TO BE OVERLY BURDENSOME TO PROHIBIT"

While I don't love the wake boat disruptions, I do believe they have a place on the water. Reasonable limitations should be considered.
