

Question 44: 26. Do you believe additional measures should be considered to reduce wave related impacts?

Ban wake boats- the lake is to small.

NO ballast

Limit time periods for plowing

Enforce the 200 ft rule

Wake boats should be eliminated

possibly - breakwaters; constructed or floating (anchored)

Increase for wake boats. I'm not sure a greater distance would help as the waves are so big from the wake boats.

LIMIT HP FOR ALL BOATS. 200-250 HP SHOULD BE enough HP

NO blasting the music from boats.

Wake boats out. and plowing & towing near shore seems unreasonable just on weekends.

A vast majority of owners at Indian Lake do not want any more rules at this lake. I personally have never seen the lake absurdly wavy.

Increase monitoring, time limits, need to tube or wake surf before 9am. I strongly believe that activities and boats should be removed. We cant make decisions based on the 4th of July only. However, increased enforcement of existing laws and some time restrictions seem reasonable. Stop selling condos.

I question if Indian Lake is wide enough for wake boats.

I do support restricted hours for wake surfing. not early which destroys water for slalom, not late, when people enjoy cruising with or without booze. I like education and the current approach of trying to be good neighbors.

Pledge from all boat pilots not just owners- owners provide a list of pilots with an annual application and they must sign pledge with guidelines.

Flat front shore walls have increased significantly over the years, these send lake energy directly back into the lake. These should be enhanced with riprap or rocks to dissipate energy.

ENFORCE CURRENT RULES.

NO OPINION

Reduce/eliminate wake boats. Limit hours of use of wake boats. Enforce current rules.

Eliminate wake boats. Grandfather in current number of licenses with intention of eventually eliminating them altogether. Lake is too small for wake boats, particularly with all the other lake activity on weekends.

Grandfather current wake boat properties & suspend any more

Wake Boat Properties"

CREATE AN AREA OF LAKE TO CREATE A LANE MADE OF A PRODUCT CALL WAVE EATERS THAT ABSORB THE WAVES SIMILAR TO OUR SKI COURSE. WAVEEATER.COM 407-630-2692

I WOULD BE HAPPY TO RESEARCH FOR YOU"

NO OPINION

if you're going to do anything designate an area for wakeboarding in the largest part of the lake. Don't start pushing out ordinances that limit boat types. People bought these boats and pay taxes to enjoy them and the lake.

BALLAST BOATING NEEDS TO BE ADDRESSED BUT UNDERSTAND IT IS DIFFICULT

limit size of boats. Cap wake boats size and number. additional wake boats permitted after 1/1/26.

THE DESIGNATE ACTIVITY ZONE IS NOT THE ANSWER. I'VE OBSERVED THAT CURRENTLY HAPPENING AS WAKE BOARD BOAT NOT DOING IT NEAR THEIR OWN WATER FRONTS

ENFORCE PA REGULATIONS OF 200' FOR WAKE ENHANCED ACTIVITIES

Enforce 100 ft safety zone from shore and sitting boats.

Limit boat size and limit hp

NO MORE BALLAST TANK TYPE OF BOATS

Education and threats to ban wake boarding have helped some. Wake boats have been better about staying far from shore.

As stated before, restrict the building of new concrete sea walls, wave action increased after the last lake lowering with all the new sea walls built. Limit HP

Ban wake boats.

ESPECIALLY FOR WAKE BOATS (INCREASE DISTANCE FROM SHORELINE)

ENFORCE THE RULES WE HAVE. LARGER FINE MIGHT HELP.

(YES- LIMIT CERTAIN BOATING, PLOWING CIRCLED)"

MORE VISIBLE PATROLS TO ENFORCE THE ABOVE

Wake boats are the problem. Even towing a tuber they are too heavy and displace too much water. Indian lake is not big enough. I observe most wake surfing activity as being done according to the lake rules. Doesn't matter... still producing wave damage.

The lake is so small it would be difficult to control large wakes. Perhaps patrolling by police should be increased.

See section 5 question 15

Education, Education, Education

Encourage and teach courtesy and etiquette"

Having ILPD on lake more. I know it's a small force (but great people) they have many constraints that limit the time they can be on the water.

Boat size is sufficient, lake too small for anything larger.

YES, LIMITING ALL POWERED BOATS ON LAKE

Eliminate large wave producing boats.

AGAIN, ENFORCEMENT IS AN ISSUE

The design of the lake makes it difficult to mitigate the problem. Narrows are too narrow to increase distance from shore. And if you put all those WB and WS that is not good for the property owners. Unfortunately I don't have a good suggestion.

Keep it as is.

ENFORCE THE RULES

PROHIBIT ANY BOAT CAPABLE OF INJECTING WATER/BALLAST OR POSSESS ANY MODIFICATION DESIGNED TO INTENTIONALLY CREATE AN ENORMOUS WAKE!!

In many studies it is recommended to maintain 500 feet from the shore or an obstruction when wake surfing to be equal to a sport boat at 100 feet off-shore.

Changing certain boating requirements such as boat weight, hp, wake enhancement capabilities would provide better management of Indian Lake licenses as well as

enforcements. If measures to control the lake are continued as is, Indian Lake shall continue to play catch up to technology and innovation. IL is not big enough to support the pontoon boats with 400 HP motors r advanced wake technologies and specialty power boats and speed capabilities of new jet ski machines.

CURRENT LAWS ARE SUFFICIENT BUT NEED ENFORSED

BAN WAKE BOATS

NO OPINION

ELIMINATE/ LIMIT MULTIPLE HOUSING PROPERTIES (CONDOS) TPO REDUCE TOTAL # BOATS USING THE LAKE

Enforce existing regulations.

BAN WAKE BOATS OUR LAKE IS TOO SMALL

My family has owned lakefront houses since I was 12 (1980) first my parents and now me in those 45 years. I have seen a lot of changes. I distinctly remember several times in the 80's when wave height and power were just as big as today. Long before any wake boats were invented. Our bow rider ski boat was swamped several times in the 80's.

STOP THIS FOCUS ON ' WAVE RELATED IMPACTS AND MOVE THIS FIRWARD TO MAKE AND RESTORE THE FUN, RECREATIONAL LAKE IT USED TO BE. (SEE SCANNED DOCUMENTS)

I checked increase distance from shore but frankly,

I do not think it matters much. I live on a very wide part of the lake & a wake boat can go by on the other side of the lake & 3-5 minutes later, my shore gets pounded by large wakes."

Limit boat size and type

Eliminate wake shapers or extend the distance from shore at a minimum.

Ban wake boats, simple solution. Lake Stonycreek no wake boats

You created the problem- how are you going to stop it w. Never should have allowed the wake boats.

possibly increase education and signage

FOLLOW USCG- WAKE BOAT REGS.

Consider limiting jet ski traffic on weekends and holidays.

BOUYS FOR WAKE ZONE

Wave activities

30 ft depth & 600 ft from shore and structures"

ELIMINATE WAKE BOATS

REDUCEDS MAX HORSE POWER TO 100 HP

INCREASE FEWES FOR JET SKIS PERMITS"

Stop all the rules that are upsetting everyone and just enjoy the lake.

IF YOU WANT TO REDUCE PROPERTY VALUES, KEEP GOING WITH THIS NONSENSE.

NO OPINION

Big wave boats not certain of name

NO OPINION

Increase enforcement of current regulations!

Eliminate wake boats.

INCREASE ENFORCEMENT

NO NEW WAKE BOATS"

Issues stem from operators incompetence.

NO MORE RULES

ENFORCE CURENT BOATING RULES

What if this zone is in my area? I don't think that is the right approach of rules. They are destroying other peoples property and legal action should be proposed.

Designated times of day for plowing and wake surfing

NO OPINION

Waves are expected on a recreational lake. Being respectful and understanding the rules are adequate measures for our lake. My grandfather taught me that 30 years ago and I do the same with my kids.

Reduce boat size

Erosion from wake boats is destroying the water quality, expanding the foot print of the lake places stress on the dam. Wake boats need to be banned from Indian Lake before further damage is done!

IN MY OPION IT IS UNFORTUNATE RTHAT THE LAKE HAS BECOME OVER POPULATED WITH BOATS BETTER SUITED FOR A MUCH LARGER LAKE- NOW WE HAVE TO HAVE SOMETHING TO MANAGE 10 POUND BOATS IN A 5 POUND LAKE.

ENCREASE ENFORCEMENT , DO NOT SUPPORT ZONES EXCEPT PARKING/SWIMMING BEHIND NO WAKE SIGNS OR NEAR- WITHIN 50 FEET OF DOCKS.

ENFORSE LAWS EXITING ALREADY IN PLACE.
