PRELIMINARY PROVISIONS

101. ENACTING CLAUSE.

Be it ordained and enacted by the Borough of Indian Lake assembled and it is hereby ordained and enacted by the authority of the same, that from and after the passage and approval of this Ordinance, all prior Ordinances pertaining to Zoning are REPEALED and the several classes or districts specified herein shall be established and the following regulations shall be in full force and effect.

102. SHORT TITLE.

This Ordinance shall be known as the Zoning Ordinance, and the map referred to herein and made a part of this Ordinance shall be known as the Zoning District Map.

103. EFFECTIVE DATE.

The effective date of this Ordinance shall be the date of its ordination and enactment by the Borough of Indian Lake.

104. VALIDITY AND CONFLICT.

Should any section or provision of this Ordinance be declared invalid, that section shall not affect the validity of the Ordinance as a whole nor any part thereof other than the part so declared to be invalid. Where a provision of this Ordinance is found to be in conflict with a provision of any Building or housing code, or with any applicable health regulations, or with any other ordinance of the Borough of Indian Lake existing on the effective date of this Ordinance, the provision which establishes the higher standard for the protection of health, safety and welfare shall prevail.

105. PURPOSE AND INTENTION OF ORDINANCE.

The purpose of this Ordinance is set forth in general terms in the Act of Legislation which enables the Borough of Indian Lake to enact this Ordinance. The provision of this Ordinance shall be held to be the minimum requirements for the health, safety and welfare of the people at large and be designed to encourage the establishment and maintenance of reasonable community standards of the physical environment.

## INTEGRATED VERSION 5/26/2010

It is fundamental to the purpose of this Ordinance to recognize that existing Lots of properties throughout the Borough of Indian Lake are less adequate than others because of their location, size, shape, different topography or any combination of these factors and limitations. The regulations herein permit most such Lots to be built upon through Conditional Uses, Special Exceptions or Variances granted by Borough Council or the Zoning Hearing Board when such physical conditions make literal enforcement of the regulations either unsatisfactory to the interest of the people at large or actually impossible.

### 106. PURPOSE AND COMMUNITY DEVELOPMENT OBJECTIVES.

The purpose of this Zoning Ordinance shall be designed:

A. To promote, protect and facilitate any or all of the following: the public health, safety, morals, and the general welfare; coordinated and practical community development and proper density of population; emergency management preparedness and operations, airports, the provisions of adequate light and air, access to incident solar energy, police protection, vehicle parking and loading space, transportation, water, sewerage, schools, recreational facilities, public grounds, the provision of a safe, reliable and adequate water supply for domestic, commercial, agricultural or industrial Use, and other public requirements; as well as preservation of the natural, scenic and historic values in the environment and preservation of forests, wetlands, aquifers and floodplains.

Single-family Residential structures built on agricultural parcels should generally comply with R-1 requirements for height, setbacks, etc., except as otherwise approved by Council, as a Conditional Use.

All present Structures on land within these Districts are accepted as being conforming within the meaning of this Ordinance consistent with the provisions of Article IV, Section 409 of this Ordinance except where Use is discontinued as provided in Article IV, Section 410 of this Ordinance. Alterations are permitted only consistent with the provisions of Article IV, Section 411 of this Ordinance. Any further Structures should generally conform to the restrictions contained in the definition of an Agricultural District insofar as possible considering the Use to which they will be put.

C-L- MUNICIPAL LAKE

The District zoned municipal lake is that area of land owned by Indian Lake Borough which is bound by the waters of Indian Lake when the level of the lake is at its natural pool level of two thousand two hundred and eighty (2280) feet. The governing body shall consider the curative amendments, plans and explanatory material submitted by the Landowner and shall also consider:

(a) The impact of the proposal upon roads, sewer facilities, water supplies, schools and other public service facilities;

Alternate members of the Board may receive compensation, as may be fixed by the governing body, for the performance of their duties when designated as alternate members pursuant to section 1106 of this Ordinance, but in no case shall such compensation exceed the rate of compensation authorized to be paid to the members of the governing body.

Written notices shall be provided at least 14 calendar days prior to the scheduled hearing by regular postal delivery. In addition to the written notice provided herein, written notice of said hearing shall be conspicuously posted on the affected tract of land at least one week prior to the hearing.

1. The fee as set by the Borough Council for hearings before the Zoning Hearing Board shall be paid at the time when an application for hearing before the Board or appeal to the Board is filed. Fees for said hearings may include compensation for the secretary and members of the Zoning Hearing Board, notice and advertising costs and necessary administrative overhead connected with the hearing. The costs, however, shall not include legal expenses of the Zoning Hearing Board, expenses for engineering, architectural or other technical consultants or expert witness costs. Any permissible fees in excess of the fee paid upon application shall be charged to the applicant after the conclusion of the hearing and shall be paid by the applicant within fourteen (14) calendar days.

2. The first hearing before the Board or hearing officer shall be commenced within 60 days from the date of receipt of the applicant's application, unless the applicant has agreed in writing to an extension of time. Each subsequent hearing before the Board or hearing officer shall be held within 45 days of the prior hearing, unless otherwise agreed to by the applicant in writing or on the record. An applicant shall complete the presentation of his case-in-chief within 100 days of the first hearing. Upon the request of the applicant, the Board or hearing officer shall assure that the applicant receives at least seven hours of hearings within the 100 days, including the first hearing. Persons opposed to the application may, upon the written consent or consent on the record by the applicant and municipality, be granted additional hearings to complete their opposition to the application provided the applicant is granted an equal number of additional hearings for rebuttal.

B. The hearings shall be conducted by the Board or the Board may appoint any member or an independent attorney retained by the Board as a hearing officer. The decision, or, where no decision is called for, the findings, shall be made by the Board; however, the appellant or the applicant, as the case may be, in addition to the municipality, may, prior to the decision of the hearing, waive decision or findings by the Board and accept the decision or findings of the hearing officer as final.

C. The parties to the hearing shall be the municipality, any person affected by the application who has made timely appearance of record before the Board, and any other person including civic or community organizations permitted to appear by the Board. The Board shall have power to require that all persons who wish to be considered parties enter appearances in writing on forms provided by the Board for that purpose or in any other manner acceptable to the Board.

## INTEGRATED VERSION 5/26/2010

D. The chairman or acting chairman of the Board or the hearing officer presiding shall have power to administer oaths and issue subpoenas to compel the attendance of witnesses and the production of relevant documents and papers, including witnesses and documents that are reasonably requested by the parties and which in the sole discretion of the chairman, acting chairman of the Board or hearing officer presiding are deemed relevant to the proceedings.

E. The parties shall have the right to be represented by counsel and shall be afforded the opportunity to respond and present evidence and argument and cross-examine adverse witnesses on all relevant issues.

F. Formal rules of evidence shall not apply, but irrelevant, immaterial, or unduly repetitious evidence may be excluded at the discretion of the chairman or acting chairman of the Board or the hearing officer presiding over the proceedings.

G. The Board or the hearing officer, as the case may be, shall keep a stenographic record of the proceedings. The appearance fee for a stenographer shall be shared equally by the applicant and the Board. The cost of the original transcript shall be paid by the Board if the transcript is ordered by the Board or hearing officer or shall be paid by the person appealing from the decision of the Board if such appeal is made, and in either event the cost of additional copies shall be paid by the person requesting such copy or copies. In other cases the party requesting the original transcript shall bear the cost thereof.

H. The Board or the hearing officer shall not communicate, directly or indirectly, with any party or his representatives in connection with any issue involved except upon notice and opportunity for all parties to participate, shall not take notice of any communication, reports, staff memoranda, or other materials, except advice from their solicitor, unless the parties are afforded an opportunity to contest the material so noticed and shall not inspect the site or its surroundings after the commencement of hearings with any party or his representative unless all parties are given an opportunity to be present.

I. The Board or the hearing officer, as the case may be, shall render a written decision or, when no decision is called for; make written findings on the application within 45 days after the last hearing before the Board or hearing officer. Where the application is contested or denied, each decision shall be accompanied by findings of fact and conclusions based thereon together with the reasons thereof. Conclusions based on any provisions of this act or of any ordinance, rule or regulation shall contain a reference to the provision relied on and the reasons why the conclusion is deemed appropriate in the light of the facts found. If the hearing is conducted by a hearing officer and there has been no stipulation that his decision or findings are final, the Board shall make his report and recommendations available to the parties within 45 days and the parties shall be entitled to make written representations thereon to

the Board prior to final decision or entry of findings, and the Board's decision shall be entered no later than 30 days after the report of the hearing officer. Except for challenges filed under section 1116.1 of this Ordinance where the Board fails to render the decision within the period required by this subsection or fails to commence, conduct or complete the required hearing as provided in subsection A.1 of this section, the decision shall be deemed to have been rendered in favor of the applicant unless the applicant has agreed in writing or on the record to an extension of time. When a decision has been rendered in favor of the applicant because of the failure of the Board to meet or render a decision as hereinabove provided, the Board shall give Public Notice of said decision within ten days from the last day it could have met to render a decision in the same manner as provided in subsection A of this section. If the Board shall fail to provide such notice, the applicant may do so. Nothing in this subsection shall prejudice the right of any party opposing the application to appeal the decision to a court of competent jurisdiction.

J. A copy of the final decision or, where no decision is called for, of the findings shall be delivered to the applicant personally or mailed to him not later than the day following its date. To all other persons who have filed their name and address with the Board not later than the last day of the hearing, the Board shall provide by mail or otherwise, brief notice of the decision or findings and a statement of the place at which the full decision or findings may be examined.

Section 1110. RESERVED

Section 1110.1. APPLICABILITY OF JUDICIAL REMEDIES. Nothing contained in this article shall be construed to deny the appellant the right to proceed directly to court where appropriate, pursuant to the Pennsylvania Rules of Civil Procedure No. 1091 (relating to action in mandamus).

Section 1110.2. ZONING HEARING BOARD'S FUNCTIONS; VARIANCES.

A. The Board shall hear requests for variances where it is alleged that the provisions of the zoning Ordinance inflict unnecessary hardship upon the applicant. The Board may by rule prescribe the form of application and may require preliminary application to the Zoning Enforcement Officer. The Board may grant a variance, provided that all of the following findings are made where relevant in a given case:

1. That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of Lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property and that the unnecessary hardship is due to such conditions and not the circumstances or conditions generally created by the provisions of the zoning Ordinance in the neighborhood or district in which the property is located.

2. That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the zoning Ordinance and that the authorization of a variance is therefore necessary to enable the reasonable Use of the property.

3. That such unnecessary hardship has not been created by the appellant.

4. That the variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, nor substantially or permanently impair the appropriate Use or development of adjacent property, nor be detrimental to the public welfare.

5. That the variance, if authorized, will represent the minimum variance that will afford relief and will represent the least modification possible of the regulation in issue.

B. In granting any variance, the Board may attach such reasonable conditions and safeguards as it may deem necessary to implement the purposes of this act and the zoning Ordinance.

Section 1112.1. ZONING HEARING BOARD'S FUNCTIONS; SPECIAL EXCEPTION. The Board shall hear and decide requests for such special exceptions in accordance with the standards and criteria provided in Article X of this Ordinance. **Section 1113.2. Governing Body's Functions; Conditional Uses.**

- (a) Where the governing body, in the zoning ordinances, has stated conditional uses to be granted or denied by the governing body pursuant to express standards and criteria, the governing body shall hold hearings on and decide requests for such conditional uses in accordance with such standards and criteria. The hearing shall be conducted by the board or the board may appoint any member or an independent attorney as a hearing officer. The decision, or, where no decision is called for, the findings shall be made by the board. However, the appellant or the applicant, as the case may be, in addition to the municipality, may, prior to the decision of the hearing, waive decision or findings by the board and accept the decision or findings of the hearing officer as final. In granting a conditional use, the governing body may attach such reasonable conditions and safeguards, in addition to those expressed in the ordinance, as it may deem necessary to implement the purposes of this act in the zoning ordinance.
- (b)
  - (1) The governing body shall render a written decision or, when no decision is called for, make written findings on the conditional use application within 45 days after the last hearing before the governing body. Where the application is contested or denied, each decision shall be accompanied by findings of fact or conclusions based hereon, together with any reasons therefore. Conclusions based on any provisions of this act or of any ordinance, rule or regulation shall contain a reference to the provision relied on and the reasons why the conclusion is deemed appropriate in the light of the facts found.
  - (2) Where the governing body fails to render the decision within the period required by this subsection or fails to commence, conduct or complete the required hearing as provided in section 908 (1.2), the decision shall be deemed to have been rendered in favor of the applicant unless the applicant has agreed in writing or on the record to an extension of time. When a decision has been rendered in favor of the applicant because of the failure of the governing body to meet or render a decision as herein above provided, the governing body shall give public notice of the decision within ten days from the last day it could have met to render a decision in the same manner as required by the public notice requirements of this act. If the governing body shall fail to provide such notice, the applicant may do so.
  - (3) Nothing in this subsection shall prejudice the right of any party opposing the application to appeal the decision to a court of competent jurisdiction. A copy of the final decision or, where no decision is called for, of the findings shall be delivered to the applicant personally or mailed to him no later than the day following its date. Section 913.3. Parties Appellant Before the Board. Appeals under section 909.1(a)(1), (2), (3), (4), (7), (8) and (9) may be filed

Section 1114. RESERVED.

Section 1114.1. TIME LIMITATIONS.

A. No person shall be allowed to file any proceeding with the Board later than 30 days after an application for development, preliminary or final, has been approved by an appropriate municipal officer, agency or body if such proceeding is designed to secure reversal or to limit the approval in any manner unless such person alleges and proves that he had no notice, knowledge, or reason to believe that such approval had been given. If such person has succeeded to his interest after such approval, he shall be bound by the knowledge of his predecessor in interest. The failure of anyone other than the Landowner to appeal from an adverse decision on a challenge to the validity of the Ordinance or map pursuant to section 1116.2 [Preliminary Opinion] shall preclude an appeal from a final approval except in the case where the final submission substantially deviates from the approved tentative approval.

B. All appeals from determinations adverse to the Landowners shall be filed by the Landowner within 30 days after notice of the determination is issued.

Section 1115. RESERVED.

Section 1115.1. STAY OF PROCEEDINGS.

A. Upon filing of any proceeding referred to in section 1113.3 and during its pendency before the Board, all land development pursuant to any challenged Ordinance, order or approval of the Zoning Enforcement Officer or of any agency or body, and all official action thereunder, shall be stayed unless the Zoning Enforcement Officer or any other appropriate agency or body certifies to the Board facts indicating that such stay would cause imminent peril to life or property, in which case the development or official action shall not be stayed otherwise than by a restraining order, which may be granted by the

Board or by the court having jurisdiction of zoning appeals, on petition, after notice to the Zoning Enforcement Officer or other appropriate agency or body. When an application for development, preliminary or final, has been duly approved and proceedings designed to reverse or limit the approval are filed with the Board by persons other than the applicant, the applicant may petition the court having jurisdiction of zoning appeals to order such persons to post bond as a condition to continuing the proceedings before the Board.

B. After the petition is presented, the court shall hold a hearing to determine if the filing of the appeal is frivolous. At the hearing, evidence may be presented on the merits of the case. It shall be the burden of the applicant for a bond to prove the appeal is frivolous. After consideration of all evidence presented, if the court determines that the appeal is frivolous, it shall grant the petition for a bond. The right to petition the court to order the appellants to post bond may be waived by the appellee, but such waiver may be revoked by him if an appeal is taken from a final decision of the court.

C. The question whether or not such petition should be granted and the amount of the bond shall be within the sound discretion of the court. An order denying a petition for bond shall be interlocutory. An order directing the responding party to post a bond shall be interlocutory.

D. If an appeal is taken by a respondent to the petition for a bond from an order of the court dismissing a zoning appeal for refusal to post a bond and the appellate court sustains the order of the court below to post a bond, the respondent to the petition for a bond, upon motion of the petitioner and after hearing in the court having jurisdiction of zoning appeals, shall be liable for all reasonable costs, expenses and attorney fees incurred by the petitioner.

Section 1116. RESERVED.

Section 1116.1. VALIDITY OF ORDINANCE; SUBSTANTIVE QUESTIONS.

A. A Landowner who, on substantive grounds, desires to challenge the validity of an Ordinance or map or any provision thereof which prohibits or restricts the Use or development of land in which he has an interest shall submit the challenge either:

1. to the Zoning Hearing Board under section 1109.1(a); or
2. to the governing body under section 1109.1(b)(4), together with a request for a curative amendment under the provisions of section 907 of this Ordinance.

INTEGRATED VERSION 5/26/2010

B. Persons aggrieved by a Use or development permitted on the land of another by an Ordinance or map, or any provision thereof, who desires to challenge its validity on substantive grounds shall first submit their challenge to the Zoning Hearing Board for a decision thereon under section 1109.1.A.1.

C. The submissions referred to in subsections (a) and (b) shall be governed by the following:

1. In challenges before the Zoning Hearing Board, the challenging party shall make a written request to the Board that it hold a hearing on its challenge. The request shall contain the reasons for the challenge. Where the Landowner desires to challenge the validity of such Ordinance and elects to proceed by curative amendment as permitted under Article IX of this Ordinance, his application to the governing body shall contain, in addition to the requirements of the written request hereof, the plans and explanatory materials describing the Use or development proposed by the Landowner in lieu of the Use or development permitted by the challenged Ordinance or map. Such plans or other materials shall not be required to meet the standards prescribed for preliminary, tentative or final approval or for the issuance of a permit, so long as they provide reasonable notice of the proposed Use or development and a sufficient basis for evaluating the challenged Ordinance or map in light thereof. Nothing herein contained shall preclude the Landowner from first seeking a final approval before submitting his challenge.

2. If the submission is made by the Landowner to the governing body under subsection A.2 of this Section, the request also shall be accompanied by an amendment or amendments to the Ordinance proposed by the Landowner to cure the alleged defects therein.

3. If the submission is made to the Borough, the Borough solicitor shall represent and advise it at the hearing or hearings referred to in section 1109.1.B.4.

4. The Borough may retain an independent attorney to present the defense of the challenged Ordinance or map on its behalf and to present their witnesses on its behalf.

5. Based upon the testimony presented at the hearing or hearings, the Borough Council or the zoning Board, as the case may be, shall determine whether the challenged Ordinance or map is defective, as alleged by the Landowner. If a challenge heard by a governing body is found to have merit, the governing body shall proceed as provided in section 907 of this Ordinance. If a challenge heard by a Zoning Hearing Board is found to have merit, the decision of the Zoning Hearing Board shall include recommended amendments to the challenged Ordinance which will cure the defects found. In reaching its decision, the Zoning Hearing Board shall consider the amendments, plans and explanatory material submitted by the Landowner and shall also consider:

INTEGRATED VERSION 5/26/2010

(a) the impact of the proposal upon roads, sewer facilities, water supplies, schools and other public service facilities;

(b) if the proposal is for a residential Use, the impact of the proposal upon regional housing needs and the effectiveness of the proposal in providing housing units of a type actually available to and affordable by classes of persons otherwise unlawfully excluded by the challenged provisions of the Ordinance or map;

(c) the suitability of the site for the intensity of Use proposed by the site's soils, slopes, woodlands, wetlands, flood plains, aquifers, natural resources and other natural features;

(d) the impact of the proposed Use on the site's soils, slopes, woodlands, wetlands, flood plains, natural resources and natural features, the degree to which these are protected or destroyed, the tolerance of the resources to development and any adverse environmental impacts; and

(e) the impact of the proposal on the preservation of Agriculture and other land uses which are essential to public health and welfare.

6. The governing body or the Zoning Hearing Board, as the case may be, shall render its decision within 45 days after the conclusion of the last hearing.

7. If the governing body or the zoning Board, as the case may be, fails to act on the Landowner's request within the time limits referred to in paragraph (6), a denial of the request is deemed to have occurred on the 46th day after the close of the last hearing.

D. The Zoning Hearing Board or governing body, as the case may be, shall commence its hearings within 60 days after the request is filed unless the Landowner requests or consents to an extension of time.

E. Public notice of the hearing shall include notice that the validity of the Ordinance or map is in question and shall give the place where and the times when a copy of the request, including any plans, explanatory material or proposed amendments may be examined by the public.

F. The challenge shall be deemed denied when:

1. the Zoning Hearing Board or governing body, as the case may be, fails to commence the hearing within the time limits set forth in subsection (d);

2. the governing body notifies the Landowner that it will not adopt the curative amendment;

3. the governing body adopts another curative amendment which is unacceptable to the Landowner; or

4. the Zoning Hearing Board or governing body, as the case may be, fails to act on the request 45 days after the close of the last hearing on the request, unless the time is extended by mutual consent by the Landowner and municipality.

INTEGRATED VERSION 5/26/2010

G. A Landowner who has challenged on substantive grounds the validity of a zoning ordinance or map either by submission of a curative amendment to the governing body under subsection A.2 or to the Zoning Hearing Board under section 1109.1.A.1 shall not submit any additional substantive challenges involving the same parcel, group of parcels or part thereof until such time as the status of the Landowner's original challenge has been finally determined or withdrawn: Provided, however, that if after the date of the Landowner's original challenge the municipality adopts a substantially new or different zoning ordinance or zoning map, the Landowner may file a second substantive challenge to the new or different zoning ordinance or zoning map under subsection A.

Section 1116.2. PROCEDURE TO OBTAIN PRELIMINARY OPINION. In order not to unreasonably delay the time when a Landowner may secure assurance that the ordinance or map under which he proposed to build is free from challenge, and recognizing that the procedure for preliminary approval of his development may be too cumbersome or may be unavailable, the Landowner may advance the date from which time for any challenge to the ordinance or map will run under section 1114.1 of this Ordinance by the following procedure:

A. The Landowner may submit plans and other materials describing his proposed Use or development to the Zoning Enforcement Officer for a preliminary opinion as to their compliance with the applicable ordinances and maps. Such plans and other materials shall not be required to meet the standards prescribed for preliminary, tentative or final approval or for the issuance of a Zoning Permit so long as they provide reasonable notice of the proposed Use or development and a sufficient basis for a preliminary opinion as to its compliance.

B. If the Zoning Enforcement Officer's preliminary opinion is that the Use or development complies with the ordinance or map, notice thereof shall be published once each week for two successive weeks in a newspaper of general circulation in the municipality. Such notice shall include a general description of the proposed Use or development and its location, by some readily identifiable directive, and the place and times where the plans and other materials may be examined by the public. The favorable preliminary approval under section 1114.1 and the time therein specified for commencing a proceeding with the Board shall run from the time when the second notice thereof has been published.

Section 1117. APPLICABILITY OF ORDINANCE AMENDMENTS. When an application for either a special exception or Conditional Use has been filed with either the Zoning Hearing Board, or Council, no change or amendment of the zoning or other governing ordinance shall affect the decision on such application

adversely to the applicant and the applicant shall be entitled to a decision in accordance with the provisions of the Borough zoning Ordinance as it stood at the time the application was duly filed.

ZONING ORDINANCE NO \_\_\_\_\_  
INDIAN LAKE BOROUGH  
ARTICLE TWELVE  
PLANNED RESIDENTIAL DEVELOPMENT

**Section 1201. Purposes.**

To encourage innovations in residential and nonresidential development and renewal so that the growing demand for housing and other development may be met by the conservation and more efficient use of open space ancillary to said dwellings and uses; so that greater opportunities for better housing and recreation may extend to all citizens and residents of the Borough; and in order to encourage a more efficient use of land and of public services and to reflect changes in the technology of land development so that economies secured may benefit all; and, in aid of these purposes, to provide a procedure which can relate the type, design and layout of residential and nonresidential development to the particular site and the particular demand for housing existing at the time of development in a manner consistent with the preservation of the property values within existing residential and nonresidential areas, and to insure that the increased flexibility of regulations over land development authorized herein is carried out under such administrative standards and procedures as shall encourage the disposition of proposals for land development without undue delay.

**Section 1202. Grant of Power.**

The Borough Council may approve, modify or disapprove any development plan within the Borough following review and recommendation by the Planning Commission, and all public hearings herein required.

**Section 1203. Applicability of Comprehensive Plan and Statement of Community Development Objectives.**

Every application for approval of a planned residential development shall be based on and interpreted in relation to statements of community development objectives, and the County comprehensive plan, to the extent it applies.

**Section 1204. Jurisdiction of County Planning Commission.**

All applications for tentative approval of planned residential development of land located within Indian Lake Borough shall also be referred to the Somerset County Planning Commission for study and recommendation; such review shall be required to be completed, with a report, within 30 days or the right to review is forfeit.

**Section 1205. Standards and Conditions for Planned Residential Development.**

(a) Uses may include but are not limited to:

- (1) Dwelling units of any dwelling type or configuration, or any combination thereof, except mobile/manufactured homes are prohibited unless expressly permitted by 'beginning' zone in tables A and B, or expressly approved by Council in advance of work on any plan.
- (2) Those nonresidential uses that may be deemed to be appropriate for incorporation in the design of the planned residential development, or the Borough as a whole.

(b) The Borough must approve timing of development among the various types of dwellings and whether some or all nonresidential uses are to be built before, after or at the same time as the residential uses.

(c) The density, or intensity of land use, in a planned residential development must meet that defined for the residence or business classes per Tables A through D, and must include:

- (1) The amount, location and proposed use of all common open space.
- (2) The location and physical characteristics of the site of the proposed planned residential development.
- (3) The location, design, type and use of all structures proposed.

(d) In the case of a planned residential development proposed to be developed over a period of years,

INTEGRATED VERSION 5/26/2010

(1) A variation may be approved, for each separate section to be developed, from the density, or intensity of use, established for the entire planned residential development.

(2) The Borough may require that the approval of greater concentration of density or intensity of land use for any section to be developed be offset by a smaller concentration in any completed prior stage or by an appropriate reservation of common open space on the remaining land by a grant of easement or by covenant in favor of the Borough. Such reservation shall, as far as practicable, defer the precise location of such common open space until an application for final approval is filed, so that flexibility of development which is a prime objective of this article, can be maintained.

(e) The common open space resulting from the application of standards for density, or intensity of land use, may be set aside for the limited or exclusive use and benefit of the residents in such development.

(1) The Borough may, at any time and from time to time, accept the dedication of land or any interest therein for public use and maintenance, but the Borough does not require, as a condition of the approval of a planned residential development, that land proposed to be set aside for common open space be dedicated or made available to public use. The landowner/developer must, however, provide for and establish an organization for the ownership and maintenance of the common open space, and that such organization shall not be dissolved nor shall it dispose of the common open space, by sale or otherwise (except to an organization conceived and established to own and maintain the common open space), without first offering to dedicate the same to the public.

(2) In the event that the organization established to own and maintain common open space, or any successor organization, shall at any time after establishment of the planned residential development fail to maintain the common open space in reasonable order and condition in accordance with the development plan, the Borough may serve written notice upon such organization or upon the residents of the planned residential development setting forth the manner in which the organization has failed to maintain the common open space in reasonable condition, and said notice shall include a demand that such deficiencies of maintenance be corrected within 30 days thereof, and shall state the date and place of a hearing thereon which shall be held within 14 days of the notice. At such hearing the Borough may modify the terms of the original notice as to the deficiencies and may give an extension of time within which they shall be corrected.

(3) If the deficiencies set forth in the original notice or in the modifications thereof shall not be corrected within said 30 days or any extension thereof, the Borough, in order to preserve the taxable values of the properties within the planned residential development and to prevent the common open space from becoming a public nuisance, may enter upon said common open space and maintain the same for a period of one year. Said maintenance by the Borough shall not constitute a taking of said common open space, nor vest in the public any rights to use the same.

(4) Before the expiration of said year, the Borough shall, upon its initiative or upon the request of the organization theretofore responsible for the maintenance of the common open space, call a public hearing upon notice to such organization, or to the residents of the planned residential development, to be held by the Borough Council or its designated agency, at which hearing such organization or the residents of the planned residential development shall show cause why such maintenance by the municipality shall not, at the option of the Borough, continue for a succeeding year. If the Borough Council, or its designated agency, shall determine that such organization is ready and able to maintain said common open space in reasonable condition, the Borough shall cease to maintain said common open space at the end of said year. If the Borough Council or its designated agency shall determine that such organization is not ready and able to maintain said common open space in a reasonable condition, the Borough

may, in its discretion, continue to maintain said common open space during the next succeeding year and, subject to a similar hearing and determination, in each year thereafter.

(5) The decision of the Borough Council or its designated agency shall be subject to appeal to court in the same manner, and within the same time limitation, as is provided for zoning appeals by this act.

(6) The cost of such maintenance by the Borough shall be assessed ratably against the properties within the planned residential development that have a right of enjoyment of the common open space, and shall become a lien on said properties. The Borough at the time of entering upon said common open space for the purpose of maintenance shall file a notice of lien in the office of the prothonotary of the county, upon the properties affected by the lien within the planned residential development.

(f) The Borough assumes the authority to establish standards for the location, width, course and surfacing of streets, walkways, curbs, gutters, street lights, shade trees, water, sewage and drainage facilities, easements or rights-of-way for drainage and utilities, reservations of public grounds, other improvements, regulations for the height and setback, even as they relate to renewable energy systems and energy-conserving building design, regulations for the height and location of vegetation with respect to boundary lines, even as they relate to renewable energy systems and energy-conserving building design, regulations for the type and location of renewable energy systems or their components and regulations for the design and construction of structures to encourage the use of renewable energy systems. The standards applicable to a particular planned residential development thus may be different than or modifications of, the standards and requirements otherwise required of subdivisions authorized under the Somerset County Subdivision and Land Development Ordinance. Such standards and requirements must be written, or established prior to approval of preliminary planning, in order that a landowner shall clearly know the limits and extent of permissible modifications from the standards otherwise applicable to subdivisions.

(g) The standards and criteria by which the development design, bulk and location of buildings may be evaluated, and all such standards and criteria for any feature of a planned residential development shall be the most restrictive of this Ordinance, other Borough Ordinances (such as floodplain or encroachment), or County regulations. Limits shall be set forth in such plans with sufficient certainty to provide reasonable information and details by which specific proposals for a planned residential development can be evaluated. Standards and criteria in such provisions should not unreasonably restrict the ability of the landowner to relate his development plan to the particular site at the time of development, and exceptions may thus be approved by Council on a case basis.

(h) If water is to be provided by means other than by private wells owned and maintained by the individual owners of lots within the planned residential development, applicants shall present evidence to the Borough Council or Planning Commission, as the case may be, that the planned residential development is to be supplied by a certificated public utility, a bona fide cooperative association of lot owners, or by a municipal corporation, authority or utility. A copy of a Certificate of Public Convenience from the Pennsylvania Public Utility Commission or an application for such certificate, a cooperative agreement, or a commitment or agreement to serve the area in question, whichever is appropriate, shall be acceptable evidence.

**Section 1206. Enforcement and Modification of Provisions of the Plan.**

To further the mutual interest of the residents of the planned residential development and of the public in the preservation of the integrity of the development plan, as finally approved, and to insure that modifications, if any, in the development plan shall not impair the reasonable reliance of the said residents upon the provisions of the development plan, nor result in changes that would adversely affect the public interest, the enforcement and modification of the provisions of the development plan as finally approved, whether those are recorded by plat, covenant, easement or otherwise shall be subject to the following provisions:

(1) The provisions of the development plan relating to: (i) the use, bulk and location of buildings and structures; (ii) the quantity and location of common open space, except as otherwise provided in this article; and (iii) the intensity of use or the density of residential units; shall run in favor of the Borough and shall be enforceable in law or in equity by the Borough, without limitation on any powers of regulation otherwise granted the Borough by law.

(2) All provisions of the development plan shall run in favor of the residents of the planned residential development but only to the extent expressly provided in the development plan and in accordance with the terms of the development plan, and to that extent said provisions, whether recorded by plat, covenant, easement or otherwise, may be enforced at law or equity by said residents acting individually, jointly, or through an organization designated in the development plan to act on their behalf; provided, however, that no provisions of the development plan shall be implied to exist in favor of residents of the planned residential development except as to those portions of the development plan which have been finally approved and have been recorded.

(3) All those provisions of the development plan authorized to be enforced by the Borough under this section may be modified, removed, or released by the Borough, except grants or easements relating to the service or equipment of a public utility, subject to the following conditions:

(i) No such modification, removal or release of the provisions of the development plan by the Borough shall affect the rights of the residents of the planned residential development to maintain and enforce those provisions, at law or equity, as provided in this section.

(ii) No modification, removal or release of the provisions of the development plan by the municipality shall be permitted except upon a finding by the Borough Council or the Planning Commission, following a public hearing thereon pursuant to public notice called and held in accordance with the provisions of this article, that the same is consistent with the efficient development and preservation of the entire planned residential development, does not adversely affect either the enjoyment of land abutting upon or across the street from the planned residential development or the public interest, and is not granted solely to confer a special benefit upon any person.

(4) Residents of the planned residential development may, to the extent and in the manner expressly authorized by the provisions of the development plan, modify, remove or release their rights to enforce the provisions of the development plan but no such action shall affect the right of the Borough to enforce the provisions of the development plan in accordance with the provisions of this section.

**Section 1207. Application for Tentative Approval of Planned Residential Development.**

In order to provide an expeditious method for processing a development plan for a planned residential development under the provisions adopted pursuant to the powers granted herein, and to avoid the delay and uncertainty which would arise if it were necessary to secure approval, by a multiplicity of local procedures, of a plat of subdivision as well as approval of a change in the zoning regulations otherwise applicable to the property, it is hereby declared to be in the public interest that all procedures with respect to the approval or disapproval of a development plan for a planned residential development and the continuing administration thereof shall be consistent with the following provisions:

(1) An application for tentative approval of the development plan for a planned residential development shall be filed by or on behalf of the landowner.

(2) The application for tentative approval shall be filed by the landowner in such form, upon the payment of the established fee and with such officials of the Borough as shall be designated in the provisions adopted pursuant to this article.

(3) All planning, zoning and subdivision matters relating to the platting, use and development of the planned residential development and subsequent modifications of the regulations relating

thereto, to the extent such modification is vested in the Borough, shall be determined and established by the Borough Council or the Planning Commission.

(4) The provisions shall require only such information in the application as is reasonably necessary to disclose to the Borough Council or the Planning Commission:

- (i) the location, size and topography of the site and the nature of the landowner's interest in the land proposed to be developed;
- (ii) the density of land use to be allocated to parts of the site to be developed;
- (iii) the location and size of the common open space and the form of organization proposed to own and maintain the common open space;
- (iv) the use and the approximate height, bulk and location of buildings and other structures;
- (v) the feasibility of proposals for water supply and the disposition of sanitary waste and storm water;
- (vi) the substance of covenants, grants of easements or other restrictions proposed to be imposed upon the use of the land, buildings and structures including proposed easements or grants for public utilities;
- (vii) the provisions for parking of vehicles and the location and width of proposed streets and public ways;
- (viii) the required modifications in the municipal land use regulations otherwise applicable to the subject property;
- (ix) the feasibility of proposals for energy conservation and the effective utilization of renewable energy sources; and
- (x) in the case of development plans which call for development over a period of years, a schedule showing the proposed times within which applications for final approval of all sections of the planned residential development are intended to be filed and this schedule must be updated annually, on the anniversary of its approval, until the development is completed and accepted.

(5) The application for tentative approval of a planned residential development shall include a written statement by the landowner setting forth the reasons why, in his opinion, a planned residential development would be in the public interest and would be consistent with the plans for the development of the Borough.

(6) The application for, and tentative and final approval of, a development plan for a planned residential development prescribed in this article shall be in lieu of all other procedures or approvals, otherwise required pursuant to this Ordinance and the County Subdivision and Land Development regulations.

**Section 1208. Public Hearings.**

(a) Within 60 days after the filing of an application for tentative approval of a planned residential development pursuant to this article, a public hearing pursuant to public notice on said application shall be held by the Borough Council or the Planning Commission, if designated, in the manner prescribed in Article IX.

(b) The Borough Council or the Planning Commission may continue the hearing from time to time, and where applicable, may refer the matter back to the Planning Commission for a report, provided, however, that in any event, the public hearing or hearings shall be concluded within 60 days after the date of the first public hearing.

(c) The Borough may offer a mediation option as an aid in completing proceedings authorized by this section and by subsequent sections in this article prior to final approval by Council. In exercising such an option, the Borough and mediating parties shall meet the stipulations and follow the procedures set forth in Article IX.

**Section 1209. The Findings.**

(a) The Borough Council, within 60 days following the conclusion of the public hearing(s) provided for in this article or within 180 days after the date of filing of the application, whichever occurs first, shall, by official written communication, to the landowner, either:

- (1) grant tentative approval of the development plan as submitted;
- (2) grant tentative approval subject to specified conditions not included in the development plan as submitted; or
- (3) deny tentative approval to the development plan.

Failure to so act within said period shall be deemed to be a grant of tentative approval of the development plan as submitted. In the event, however, that tentative approval is granted subject to conditions, the landowner may, within 30 days after receiving a copy of the official written communication of the Borough Council notify such Borough Council of his refusal to accept all said conditions, in which case, the Borough Council shall be deemed to have denied tentative approval of the development plan. In the event the landowner does not, within said period, notify the Borough Council of his refusal to accept all said conditions, tentative approval of the development plan, with all said conditions, shall stand as granted.

(b) The grant or denial of tentative approval by official written communication shall include not only conclusions but also findings of fact related to the specific proposal and shall set forth the reasons for the grant, with or without conditions, or for the denial, and said communication shall set forth with particularity in what respects the development plan would or would not be in the public interest, including, but not limited to, findings of fact and conclusions on the following:

- (1) in those respects in which the development plan is or is not consistent with the plan(s) for the development of the Borough;
- (2) the extent to which the development plan departs from zoning and subdivision regulations otherwise applicable to the subject property, including but not limited to density, bulk and use, and the reasons why such departures are or are not deemed to be in the public interest;
- (3) the purpose, location and amount of the common open space in the planned residential development, the reliability of the proposals for maintenance and conservation of the common open space, and the adequacy or inadequacy of the amount and purpose of the common open space as related to the proposed density and type of residential development;
- (4) the physical design of the development plan and the manner in which said design does or does not make adequate provision for public services, provide adequate control over vehicular traffic, and further the amenities of light and air, recreation and visual enjoyment;
- (5) the relationship, beneficial or adverse, of the proposed planned residential development to the neighborhood in which it is proposed to be established; and
- (6) in the case of a development plan which proposes development over a period of years, the sufficiency of the terms and conditions intended to protect the interests of the public and of the residents of the planned residential development in the integrity of the development plan.

(c) In the event a development plan is granted tentative approval, with or without conditions, the Borough Council may set forth in the official written communication the timeframes within which an application for final approval of the development plan shall be filed or, in the case of a development plan which provides for development over a period of years, the periods of time within which applications for final approval of each part thereof shall be filed. Except upon the consent of the landowner, the time so established between grant of tentative approval and an application for final approval shall not be less than three months and, in the case of developments over a period of years, the required time between applications for final approval of each part of a plan shall be not less than 12 months.

**Section 1210. Status of Plan After Tentative Approval.**

(a) The official written communication provided for in this article shall be certified by the Borough Secretary and shall be filed in the Borough office, and a certified copy shall be mailed to the landowner.

Where tentative approval has been granted, it shall be deemed an amendment to the zoning map, effective upon final approval, and shall be noted on the zoning map as "PRD".

(b) Tentative approval of a development plan shall not qualify a plat of the planned residential development for recording nor authorize development or the issuance of any building permits. A development plan which has been given tentative approval as submitted, or which has been given tentative approval with conditions which have been accepted by the landowner (and provided that the landowner has not defaulted nor violated any of the conditions of the tentative approval), shall not be modified or revoked nor otherwise impaired by action of the Borough pending an application or applications for final approval, without the consent of the landowner, provided an application or applications for final approval is filed or, in the case of development over a period of years, provided applications are filed, within the periods of time specified in the official written communication granting tentative approval.

(c) In the event that a development plan is given tentative approval and thereafter, but prior to final approval, the landowner shall elect to abandon said development plan and shall so notify the Borough Council in writing, or in the event the landowner shall fail to file application or applications for final approval within the required period of time or times, as the case may be, the tentative approval shall be deemed to be revoked and all that portion of the area included in the development plan for which final approval has not been given shall revert to being subject to those local ordinances otherwise applicable thereto, as they may be amended from time to time, and the same shall be noted on the zoning map and in the records of the Borough Secretary or clerk of the Borough.

**Section 1211. Application for Final Approval.**

(a) An application for final approval may be for all the land included in a development plan or, to the extent set forth in the tentative approval, for a section thereof. Said application shall be made to the Secretary of the Borough and within the time or times specified by the official written communication granting tentative approval. The application shall include any drawings, specifications, covenants, easements, performance bond and such other requirements as may be specified by ordinance, as well as any conditions set forth in the official written communication at the time of tentative approval. A public hearing on an application for final approval of the development plan, or part thereof, shall not be required provided the development plan, or the part thereof, submitted for final approval, is in compliance with the development plan theretofore given tentative approval and with any specified conditions attached thereto.

(b) In the event the application for final approval has been filed, together with all drawings, specifications and other documents in support thereof, and as required by the ordinance and the official written communication of tentative approval, the Borough shall, within 45 days from the date of the regular meeting of the Borough Council or the Planning Commission, whichever first reviews the application next following the date the application is filed, grant such development plan final approval. Provided, however, that should the next regular meeting occur more than 30 days following the filing of the application, the 45-day period shall be measured from the 30th day following the day the application has been filed.

(c) In the event the development plan as submitted contains variations from the development plan given tentative approval, the Council may refuse to grant final approval and shall, within 45 days from the date of the regular meeting of the Borough Council or the Planning Commission, whichever first reviews the application next following the date the application is filed, so advise the landowner in writing of said refusal, setting forth in said notice the reasons why one or more of said variations are not in the public interest. In the event of such refusal, the landowner may either:

- (1) refile his application for final approval without the variations objected; or
- (2) file a written request with the Borough Council that it hold a public hearing, at landowner expense, on his application for final approval.

If the landowner wishes to take either such alternate action he may do so at any time within which he shall be entitled to apply for final approval, or within 30 additional days if the time for applying for final

approval shall have already passed at the time when the landowner was advised that the development plan was not in substantial compliance. In the event the landowner shall fail to take either of these alternate actions within said time, he shall be deemed to have abandoned the development plan. Any such public hearing shall be held pursuant to public notice within 30 days after request for the hearing is made by the landowner, and the hearing shall be conducted in the manner described in this article for public hearings on applications for tentative approval. Within 30 days after the conclusion of the hearing, the Borough Council shall by official written communication either grant final approval to the development plan or deny final approval. The grant or denial of final approval of the development plan shall, in cases arising under this section, be in the form and contain the findings required for an application for tentative approval set forth in this article. Failure of the Borough Council to render a decision on an application for final approval and communicate it to the applicant within the time and in the manner required by this section shall be deemed an approval of the application for final approval, as presented, unless the applicant has agreed in writing to an extension of time or change in the prescribed manner of presentation of communication of the decision, in which case, failure to meet the extended time or change in manner or presentation of communication shall have like effect.

(d) A development plan, or any part thereof, which has been given final approval shall be so certified without delay by the Borough Council (via authorized endorsement by the Zoning Officer) and shall be filed by the landowner or developer of record forthwith in the office of the recorder of deeds before any development shall take place in accordance therewith. Upon the filing of record of the development plan the zoning and subdivision regulations otherwise applicable to the land included in such plan shall cease to apply thereto. Pending completion, in accordance with the time provisions stated of said planned residential development or of that part thereof, as the case may be, that has been finally approved, no modification of the provisions of said development plan, or part thereof, as finally approved, shall be made except with the consent of the landowner. Upon approval of a final plat, the developer shall record the plat and post financial security in accordance with Borough or County regulations and conditions of approval.

(e) In the event that a development plan, or a section thereof, is given final approval and thereafter the landowner shall abandon such plan or the section thereof that has been finally approved, and shall so notify the Borough Council in writing; or, in the event the landowner shall fail to commence and carry out the planned residential development in accordance with the time provisions stated and agreed, no development or further development shall take place on the property included in the development plan until after the said property is reclassified (reverted to traditional, non-“PRD” zone) by enactment of an amendment to this zoning ordinance or map change in the manner prescribed for such amendments or changes.

**Section 1212.1. Jurisdiction.**

District justices shall have initial jurisdiction over proceedings brought under section 1212.2.

**Section 1212.2. Enforcement Remedies.**

(a) Any person, partnership or corporation, who or which has violated the planned residential development provisions of any ordinance enacted under this act or prior enabling laws shall, upon being found liable therefore in a civil enforcement proceeding commenced by a Borough, pay a judgment of not more than \$500 plus all court costs, including reasonable attorney fees incurred by a Borough as a result thereof. No judgment shall commence or be imposed, levied or payable until the date of the determination of a violation by the district justice. If the defendant neither pays nor timely appeals the judgment, the Borough may enforce the judgment pursuant to the appropriate rules of civil procedure. Each day that a violation continues shall constitute a separate violation, unless the district justice determining that there has been a violation further determines that there was a good faith basis for the person, partnership or corporation violating the ordinance to have believed that there was no such violation, in which event there shall be deemed to have been only one such violation until the fifth day following the date of the determination of a violation by the district justice, and thereafter each day that a violation continues shall constitute a separate violation. All judgments, costs and reasonable attorney

INTEGRATED VERSION 5/26/2010

fees collected for the violation of planned residential development provisions shall be paid over to the Borough whose ordinance has been violated.

(b) The court of common pleas, upon petition, may grant an order of stay, upon cause shown, tolling the per diem judgment pending a final adjudication of the violation and judgment.

(c) Nothing contained in this section shall be construed or interpreted to grant to any person or entity other than the Borough the right to commence any action for enforcement pursuant to this section.
